APPROVAL CRITERIA

Requests for Invega Trinza (paliperidone palmitate extended release injection) may be approved if the following criteria are met:

- I. Individual is 18 years of age or older; **AND**
- II. Individual is using in the treatment of schizophrenia; **AND**
- III. Individual has been adequately treated with Invega Sustenna for at least four (4) months.

Note: Invega Trinza (paliperidone palmitate) has a black box warning regarding use in elderly individuals with dementia-related psychosis. Such individuals are at an increased risk of death; therefore, it is not approved for the treatment of dementia-related psychosis.

State Specific Mandates		
Virginia	10/1/15	<p style="text-align: center;"><u>Virginia Medicaid:</u></p> <p>Individuals 17 years of age and younger will require prior authorization for all antipsychotic agents, aligning with Virginia Medicaid FFS program requirements.</p> <ol style="list-style-type: none"> I. Starting 10/1/15, members utilizing all antipsychotics <u>except the following</u> will follow the criteria outlined here: chlorpromazine, haloperidol (tablets or liquid), Risperdal (risperidone) tablets or solution, trifluoperazine.

This policy does not apply to health plans or member categories that do not have pharmacy benefits, nor does it apply to Medicare. Note that market specific restrictions or transition-of-care benefit limitations may apply.

		<p>II. Starting 11/1/15, all members will follow the criteria outlined here.</p> <p>Per DMAS: Effective March 1, 2015, the Department of Medical Assistance Services (DMAS) will expand its typical and atypical antipsychotic service authorization (SA) requirement (also known as a PA or prior authorization) to any member under the age of eighteen (18) enrolled in Virginia Medicaid's fee-for-service program. The SA requirement for members under the age of eighteen (18) are as follows:</p> <ol style="list-style-type: none"> I. The drug must be prescribed by a psychiatrist or neurologist or the prescriber must supply proof of a psychiatric consultation AND, II. the member must have an appropriate diagnosis, as indicated on the attached SA form AND, III. the member must be participating in a behavioral management program AND, IV. Written, informed consent for the medication must be obtained from the parent or guardian. <p>SAs will be given for six (6) months, after which a new SA will need to be obtained. If the SA criteria listed above are not met, a thirty (30) day emergency fill will be allowed and the SA request will be reviewed by a board certified Child and Adolescent Psychiatrist. Failure to complete the SA process and meet the clinical criteria during this thirty (30) day period will result in the denial of subsequent pharmacy claims for the drug. Service authorization does not guarantee payment for the drug; payment is contingent upon passing all edits contained within the claims payment process, the individual's continued Medicaid eligibility, the provider's continued Medicaid eligibility, and the ongoing medical necessity for the drug.</p> <div style="text-align: center;">  <p>Microsoft Word 97 - 2003 Document</p> </div> <p>SA criteria document:</p> <p>In addition, use of preferred atypical antipsychotic agents prior to a non-preferred atypical antipsychotic will still be required.</p> <p>The preferred oral atypical antipsychotic agents are as follows: risperidone, olanzapine, quetiapine fumarate, ziprasidone, aripiprazole tablets, paliperidone. Trial and failure of one of these products is required prior to use of a non-preferred atypical antipsychotic unless the following applies:</p> <ol style="list-style-type: none"> I. Latuda is requested and individual is diagnosed with bipolar disorder along with significant cardiovascular risk factors (such as a high risk of QTc prolongation) or is at high risk for complications related to weight gain. <p>Requests for individuals 18 and over will follow criteria outlined below:</p>
