Oral and injectable ketorolac agents quantity limit

Override(s)	Approval duration
Prior Authorization Quantity Limit	30 days

Medications	Quantity limit
Ketorolac 10mg tablet	20 tablets per 30 days
Ketorolac 15mg/ml solution for injection	4 injections (4 mL) per 30 days
Ketorolac 30mg/ml solution for injection	2 injections (2 mL) per 30 days

Approval criteria:

Requests for an increased quantity of **ketorolac solution for injection** may be approved up to a maximum of 600mg [up to a total of forty (40) 15 mg/mL and twenty (20) 30 mg/mL injections] per 30 if the following criterion is met:

- I. Individual is using for short term (less than or equal to 5 days) moderately severe, acute pain management.

Requests for an increased quantity of **ketorolac tablets** may be approved **one time** for an additional 20 tablets for individuals who meet the following criterion:

- II. Individual has suffered more than one moderately severe acute injury within 30 days (e.g. broken arm one week, sprained ankle two weeks later)

Notes:

- I. Prescribing label recommends the duration of use alone or sequentially with other formulations of ketorolac should not exceed 5 days. Concurrent use with other forms for ketorolac, aspirin, or other NSAIDs should be avoided.
- II. Quantity limits are based on severe toxicity potential (for example, gastrointestinal, cardiovascular, renal, and platelet goals. Individuals should be transitioned to alternative analgesics as soon as possible.
- III. Prescribing label recommends renal and liver function monitoring prior to use and when treatment with multiple doses is necessary.
- IV. If an increase in the quantity limit of ketorolac tablets or injections is requested and the applicable override criterion is not met, the request will be forwarded to the plan for review.
