Northera (droxidopa)

Override(s)	Approval Duration
Prior Authorization Quantity Limit	1 year

Medications	Quantity Limit
Northera (droxidopa) 100mg [^]	3 capsules per day
Northera (droxidopa) 200mg, 300mg	6 capsules per day

^Titration dosing until symptomatic response or maximal daily dose has been achieved: May approve up to an additional #15 (fifteen) 100 mg capsules per day in the first 14 days (2 weeks) of therapy.

APPROVAL CRITERIA

Requests for Northera (droxidopa) may be approved if the following criteria are met:

- I. Individual is 18 years of age or older; **AND**
- II. Individual has a diagnosis of symptomatic neurogenic orthostatic hypotension (NOH) caused by:
 - A. Primary autonomic failure [such as but not limited to Parkinson's disease (PD), multiple system atrophy (MSA), pure autonomic failure (PAF), Dementia with Lewy Bodies (DLB)]; **OR**
 - B. Dopamine beta-hydroxylase deficiency; **OR**
 - C. Non-diabetic autonomic neuropathy;

AND

- III. Individual has had a trial and inadequate response or intolerance to one prior symptomatic NOH pharmacologic therapy (which may include midodrine or fludrocortisone).

Notes:

1. Northera (droxidopa) has a black box warning for supine hypertension. Monitor supine blood pressure prior to and during treatment and more frequently when increasing doses. Elevating the head of the bed lessens the risk of supine hypertension, and blood pressure should be measured in this position. If supine hypertension cannot be managed by elevation of the head of the bed, reduce or discontinue droxidopa.

This policy does not apply to health plans or member categories that do not have pharmacy benefits, nor does it apply to Medicare. Note that market specific restrictions or transition-of-care benefit limitations may apply.
