Oralair (sweet vernal, orchard, perennial rye, Timothy, and Kentucky blue grass mixed pollens allergen extract) may not be approved for the following:

- I. Individual has severe, unstable or uncontrolled asthma; **OR**
- II. Individual has a history of any severe systemic allergic reaction; **OR**
- III. Individual is receiving concomitant therapy with other allergen immunotherapy products; **OR**
- IV. Individual has a history of eosinophilic esophagitis.

**Notes:**

Oralair (sweet vernal, orchard, perennial rye, Timothy, and Kentucky blue grass mixed pollens allergen extract) has a black box warning for severe allergic reactions. Oralair can cause life-threatening allergic reactions such as anaphylaxis and severe laryngopharyngeal edema. Therapy should not be administered to individuals with severe, unstable or uncontrolled asthma. Individuals should be observed in the office for at least 30 minutes following the initial dose. Therapy may not be suitable for individuals who may be unresponsive to epinephrine or inhaled bronchodilators, such as those taking beta-blockers.
